Professional Training Courses of

Skill & Expertise

Courses:
- Condition Monitoring, Maintenance & Reliability
- TPM, RCM, Failure Modes & Effects Analysis
- Vibration Analysis (Basic & Advanced)
- Vibration Transducers & Calibration
- Ultrasonics
- Current Analysis
- Thermography
- Balancing
- Alignment
- Modal Analysis & ODS
- Rotating Machinery Dynamics (Rotor Dynamics)
- Fire-Fighting
- SCADA
- Customized training on Design, Installation, Operation & Maintenance of Bearing, Pumps, Fans, Gas/Steam/Wind Turbines, Generators, Gear Boxes, Electrical Motors, etc

Who Should Attend?
- University Students
- Condition Monitoring Engineers
- Operators
- Machinery Engineers & Technicians
- Control & Instrumentation Engineers
- Maintenance & Repair Engineers
- Professional Sale Engineers
- Enthusiasts in Learning
